

# FABIAN AND CLAUDE WALTER GALERIE ANGELA LYN IN THE BLUE

Angela Lyn and Fabian & Claude Walter Galerie step forward to engage with their audience in an innovative approach to the function of a gallery exhibition. Within the presence of her new series of paintings *in the blue*, the exhibition becomes a gathering place to reflect on the shared uncertainty of our time.

# Blue Peace

The Vision of Water and Peace

## There is no life without water.

There are devastating threats to freshwater around the world.

Blue Peace is an organisation that turns the competition over limited freshwater resources into collaboration, resulting in more peaceful, cohesive and sustainable societies. A growing global movement driven by the Geneva Water Hub and supported by the Swiss Agency for Development and Cooperation (SDC) and the Federal Department of Foreign Affairs (FDFA), Blue Peace aims to develop a culture of peace and preserve precious freshwater resources, while achieving equitable and sustainable use of water across boundaries, sectors and generations.

Reflecting on the power of art to communicate and affect human attitude, *in the blue* brings people together and invites response towards one another and towards the world in which we live.

*standing on the ledge nothing is obvious  
the view stretches far towards the Jura  
enveloping field, forest and stone  
close to the edge cedars cling fast to the rocks  
before a fathomless drop  
high above, birds circle since ever*

*amidst the endless blue  
a thought, urgent, instinctive  
how will the earth respond to our weight?*

*I imagine the landscape filling with water  
transforming onto a vast ocean  
miraculous, resolute*

*the earth cleaning itself  
washing away the unwanted  
putting itself back in order*
